

BeeGlueVag

Intimate gel with propolis

Ingredients (INCI): Aqua, Glycerin, Poloxamer 407, Propolis, Calendula Officinalis Oil, Achillea Millefolium Extract, Tocopheryl Acetate, Lactic Acid, Sodium Benzoate, Disodium EDTA.

Method of action: Beegluevag intimate gel contains propolis, Marigold (Calendula Officinalis) oil and Yarrow (Achillea Millefolium) extract, ingredients traditionally used as natural antimicrobials that protect mucosa against possible infections. Using Beegluevag intimate gel alleviates unpleasant discomfort like excessive secretion, itching, burning sensation and irritation of the vaginal mucosa. Bioadhesive gel base has epithelizing effect and enables gradual and continuous release of active ingredients in the area of application and better adhesion of the active substances to the mucosa.

Beegluevag Intimate gel is recommended for:

- ✓ Those prone to infections of the intimate region
- ✓ Use as an aid in combating inflammatory processes of the vaginal mucosa and infections accompanied by increased secretion
- ✓ Women who use contraceptives
- ✓ As a preventive remedy when visiting public places (spa, swimming pools, solariums, etc.)

Instructions for use: Before use, establish proper hygiene of the intimate region as well as your hands. Remove the cap from the tube and screw on the applicator (included in the package) on the top of the tube. Squeeze out about 2 cm of gel (dose for one application) deep into the vagina, while in a supine position, applying light pressure. If the target area is on the external parts of the intimate areas, apply the gel externally, in a thin layer. It is recommended to apply the product once per day, preferably in the evening before going to bed. If necessary, the product can be used 2 times a day (morning and evening). After the withdrawal of symptoms, it is advisable to apply the product 2-3 times a week, in order to maintain the achieved improvement.

Warnings: For external use only. Keep out of reach of children. Do not use in case of hypersensitivity to any of the ingredients in the product. During pregnancy, consult a doctor regarding the use of the product.

Package: Tube with 20 ml of gel in a box containing two applicators. The second applicator is included as a spare, in case of loss or damage.

Storage instructions: Store at temperatures up to 25°C, out of reach of children.

Shelf life: 48 months from the date of manufacture. The date of manufacture is contained in the serial number imprinted on the weld of the tube and is printed on the box.
