Propolis Extract	5 g	0,0075 mg
Propylene Glycol	2 g	0,003 mg

**Ingredients:** Aqua, Gentiana Lutea Extract, Poloxamer 407, Propolis Extract, Panthenol, Propylparaben, Methylparaben.

#### Effects:

**Stop Biting Nails Gel** is a gel that deters biting of the nails, cuticles as well as thumb sucking.

It is applied to the surface of nails and the skin surrounding nails. Due to its bitter taste stemming from the extract of the Gentiana lutea, **Stop Biting Nails Gel** eliminates the bad habit of nail biting, which is not only an aesthetic, but also a health issue (nail biting can cause a fungal infection of the fingers and in the mouth).

Panthenol contributes to the regeneration of sensitive skin surrounding the nails.

**Stop Biting Nails Gel** contains a specially formulated gel as base, which enhances the contact of the product with skin and nails and gradually releases active ingredients, thus enabling an extended effect of the gel on the application area.

**Stop Biting Nails Gel** is a natural and completely safe product, recommended both for children and adults.

The propolis extract in the product nourishes skin making it soft and elastic.

Regular application of the gel can prevent the breaking and peeling of nails, as well as formation of cuticles.

#### They are recommended as help:

- ✓ **Against nail biting, cuticle sucking and thumb sucking.**
- ✓ **For beautiful and well-groomed nails and healthy growth.**

#### Instruction for use:

A thin layer of gel should be applied onto the surface of the nail and the skin surrounding the nail several times during the day.

#### Warnings:
